Button Functions

Skip

Choosing the "Skip" button will exit the game, and you will not be able to rejoin or play again.

Next

Clicking the "Next" button will take you to the next question, but you will not be able to return to or solve the skipped question later.

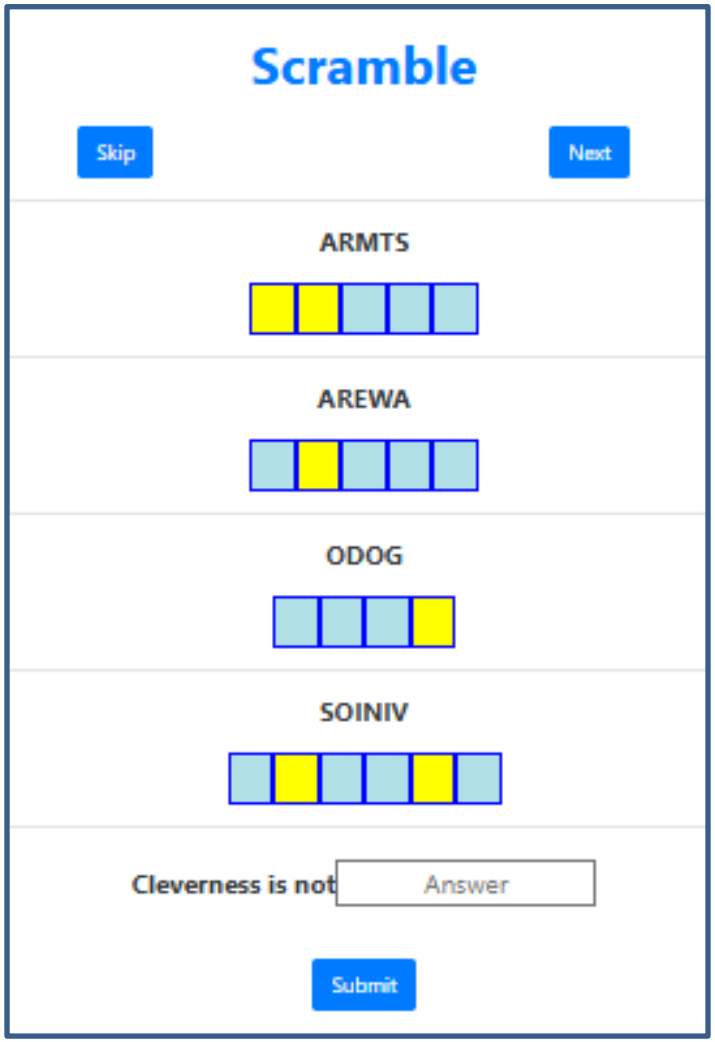

Scramble

1. In this you have to arrange the jumbled word to form a correct word.
2. Pick the letters from the yellow-coloured textbox and form another word.
3. It will alert you if you forget to input data in any row.

Scramble is a word game where players re-arrange a set of mixed-up letters to form valid words.

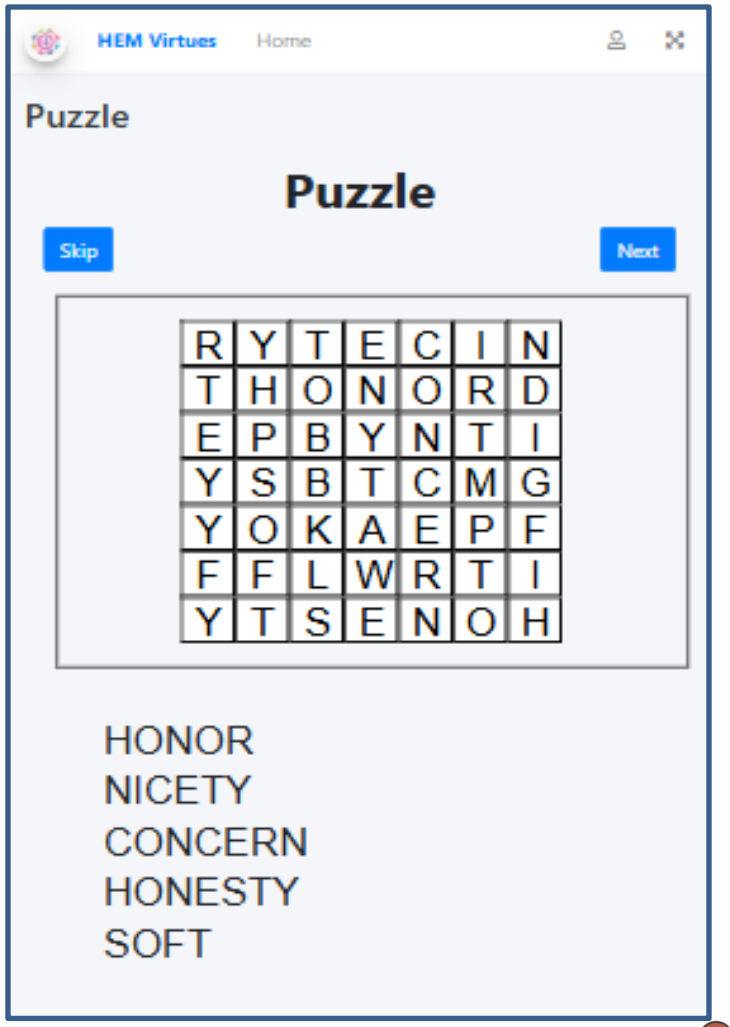

Puzzle

1. It Improves our vocabulary, problem-solving, and reasoning skills and develops deep thinking.
2. We have given a puzzle box and given some words. You have to get that word out of that puzzle box.
3. To create a word, the box from the starting letter of the word to it's ending letter must be selected.
4. The word you choose in the puzzle box will be removed from the given word list.

A word puzzle is a game or activity that challenges players to find, form, or decipher words using clues, patterns, or jumbled letters.

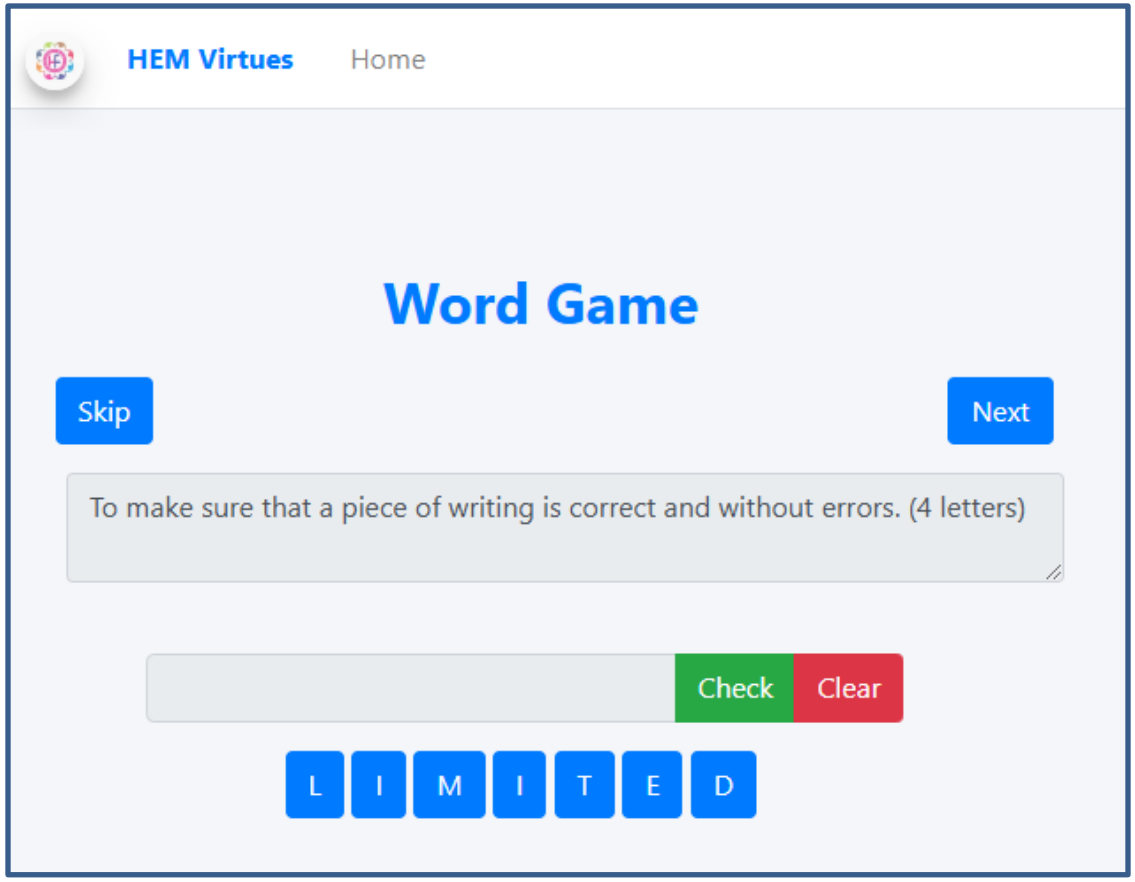

Word Game

1. Form a word based on the given questions.
2. You have to form words only in the specific number of letters given in the question.

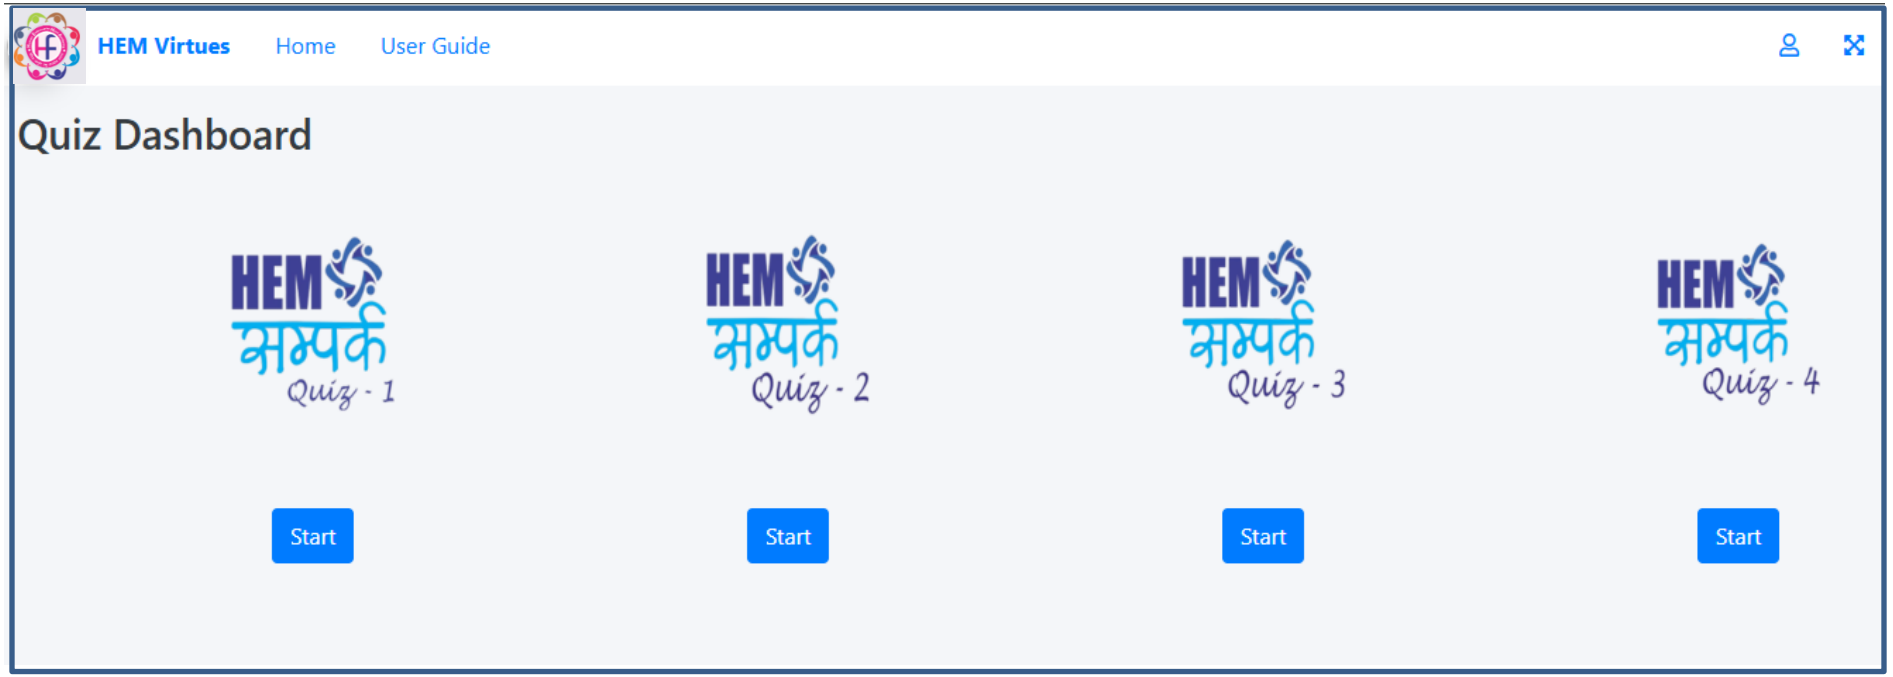

A word game is a linguistic puzzle or challenge where players create, decipher, or manipulate words to achieve specific goals.

Human Endeavour for Moral Awakening

Ken Ken

1. Ken Ken has an equal number of rows and columns in 3x3 grid. These grids have cages that can be identified by colors.
2. Your task is to fill numbers 1, 2, or 3 in the cage such that their addition (+), subtraction (-), multiplication(x), or division(/) will result in the number shown in the cage.

Ken Ken is a math-based puzzle where players fill a grid with numbers, satisfying mathematical operations in outlined "cages" and ensuring no repeats in any row or column.

After filling the data in Ken Ken game, click on submit button.

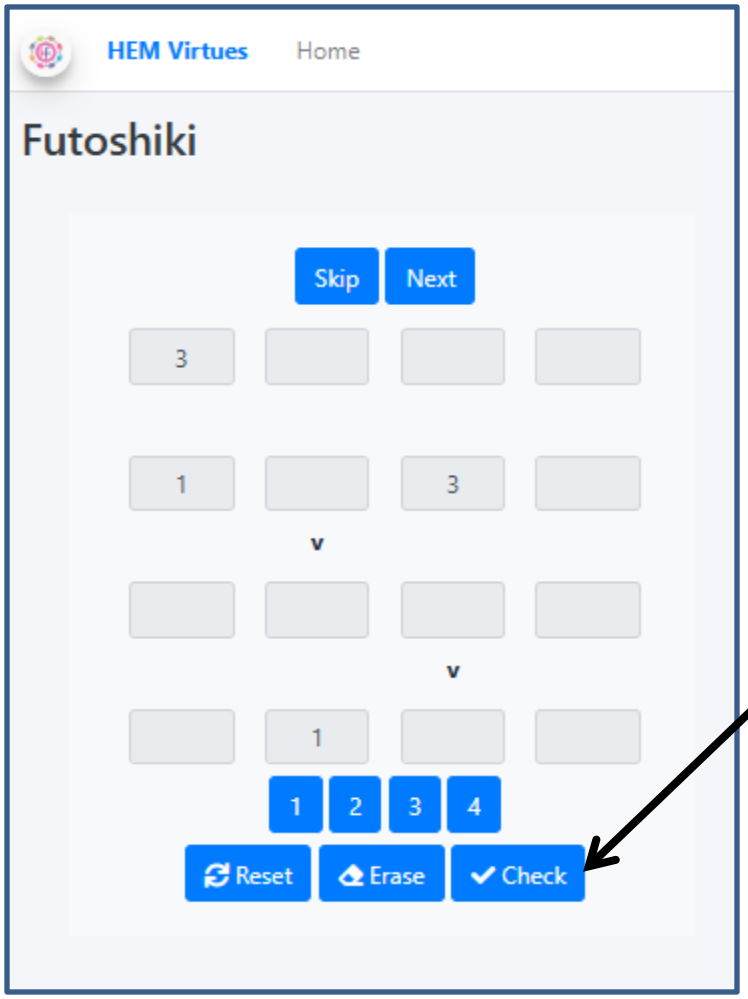

giving wings to YOUR dreams

Futoshiki

1. Futoshiki is a game consisting of '>' and '<' signs.
2. Futoshiki is to place the numbers 1 to 4.
3. In this each row and column of the 4X4 grid so that no number is repeated in a row or column.

Futoshiki is a logic puzzle where players fill a grid with numbers, ensuring each row and column contains unique values while respecting inequality signs between cells.

After filling the data in futoshiki game, click on submit button.

Game 24

1. In this game, you have to use 4 mathematical operators (+,-,*,/) in such a way that the result is 24.
2. You can use any Sign, any number of times but each of the four numbers given can be used only once.

The game 24 is a mathematical card game where players use four numbers and basic operations (addition, subtraction, multiplication, division) to make a total of 24.
